

TRICK OR TREATING

Valley Township Board of Supervisors, in alignment with the CDC's recommendations regarding "Trick or Treat", is not endorsing trick or treating this year. However, if parents/legal guardians will assume the risk, liability, and supervision of their children, the Board requests that trick-or-treating be held within the Township on Saturday, October 31, 2020, between the hours of 5:00 – 7:00 p.m. and is for Township children only. Further, it is requested that the tradition of those homes who are NOT participating keep their front door lights off and that these homes are not visited for trick-or-treating. Anyone actively participating will be required to adhere to existing COVID-19 public health guidelines (i.e., social distancing, mass gatherings, etc.) issued by the CDC, Governor's Office, and State and Local Health Departments. As we get closer to the date, it is quite possible that the aforementioned agencies could issue restrictions or limitations as we continue to adapt to the progression of the pandemic. Any changes to the Township's position regarding trick or treat will be conveyed through this website.

FROM THE CDC

Many traditional Halloween activities can be high-risk for spreading viruses. There are several safer, alternative ways to participate in Halloween. If you may have COVID-19 or you may have been exposed to someone with COVID-19, you should not participate in in-person Halloween festivities and should not give out candy to trick-or-treaters.

Lower risk activities: These lower risk activities can be safe alternatives:

- Carving or decorating pumpkins with members of your household and displaying them
- Carving or decorating pumpkins outside, at a safe distance, with neighbors or friends
- Decorating your house, apartment, or living space
- Doing a Halloween scavenger hunt where children are given lists of Halloween-themed things to look for while they walk outdoors from house to house admiring Halloween decorations at a distance
- Having a virtual Halloween costume contest
- Having a Halloween movie night with people you live with
- Having a scavenger hunt-style trick-or-treat search with your household members in or around your home rather than going house to house

Moderate risk activities:

- Participating in one-way trick-or-treating where individually wrapped goodie bags are lined up for families to grab and go while continuing to social distance (such as at the end of a driveway or at the edge of a yard)
 - If you are preparing goodie bags, [wash your hands](#) with soap and water for at least 20 second before and after preparing the bags.

- Having a small group, outdoor, open-air costume parade where people are distanced more than 6 feet apart
- Attending a costume party held outdoors where protective masks are used and people can remain more than 6 feet apart
 - A costume mask (such as for Halloween) is not a substitute for a cloth mask. A costume mask should not be used unless it is made of two or more layers of breathable fabric that covers the mouth and nose and doesn't leave gaps around the face.
 - Do not wear a costume mask over a protective cloth mask because it can be dangerous if the costume mask makes it hard to breathe. Instead, consider using a Halloween-themed cloth mask.
- Going to an open-air, one-way, walk-through haunted forest where appropriate mask use is enforced, and people can remain more than 6 feet apart
 - If screaming will likely occur, greater distancing is advised. The greater the distance, the lower the risk of spreading a respiratory virus.
- Visiting pumpkin patches or orchards where people use hand sanitizer before touching pumpkins or picking apples, wearing masks is encouraged or enforced, and people are able to maintain social distancing
- Having an outdoor Halloween movie night with local family friends with people spaced at least 6 feet apart
 - If screaming will likely occur, greater distancing is advised. The greater the distance, the lower the risk of spreading a respiratory virus.
 - Lower your risk by following CDC's recommendations on [hosting gatherings or cook-outs](#).

Higher risk activities: Avoid these higher risk activities to help prevent the spread of the virus that causes COVID-19:

- Participating in traditional trick-or-treating where treats are handed to children who go door to door
- Having trunk-or-treat where treats are handed out from trunks of cars lined up in large parking lots
- Attending crowded costume parties held indoors
- Going to an indoor haunted house where people may be crowded together and screaming
- Going on hayrides or tractor rides with people who are not in your household
- Using [alcohol or drugs](#), which can cloud judgement and increase risky behaviors
- Traveling to a [rural](#) fall festival that is not in your community if you live in an area with community spread of COVID-19
