Janis A. Rambo, Secretary/Treasurer

April 20, 2017

Dear Residents and Businesses,

There will be construction on the South Mount Airy Road Bridge from the beginning of May until mid-June. The purpose of the construction is to replace the curbing and guiderail on the bridge, repair holes in the northwestern wingwall, and install a concrete drainage swale on the northwestern portion of the bridge. Construction will occur between 7:00 am and dusk, Monday through Saturday.

Once construction begins the bridge will be open with limited access for approximately 45 days. A 9.5-foot wide travel lane will be open on the bridge during construction to allow vehicles access across the bridge. Temporary traffic control signage will be installed to control traffic across the bridge to one car at a time.

During construction, there will be days in which there are no workers on site. However, please do not enter the construction area via pedestrian or vehicular traffic. The traffic controls need to remain in place for the duration while the concrete is curing and is not ready to support pedestrian or vehicular traffic.

Thank you in advance for your cooperation through this process. If you have any questions you can contact Janis Rambo, Township Secretary, at the Township Office.
